Completion date: 2008

Products:
olé, time out

In the canteen, employees and also visiting guests are catered for. A large auditorium is available for events and presentations. Photos: © Sedus

Where corporate policy regarding personnel is concerned, one of the declared goals of Nissan is to improve the well-being of its employees. To this end, the company's new canteen was created as an ideal platform for informal communication. As furniture, **olé** chairs in radiant red, the corporate colour, are combined with **time out** tables.

„For some people, it is a break from work but for us, it is a meeting“ – This is the motto in the canteen.
